

CSE111: Midterm

Uriel Montes

1. What makers produce printers?

```
SELECT DISTINCT maker  
FROM Product, Printer  
WHERE Product.model = Printer.model;
```

2. What makers produce color printers cheaper than \$200?

```
SELECT maker
FROM Product, Printer
WHERE Product.model = Printer.model
      AND Printer.color = 1
      AND Printer.price < 200;
```

Product

Printer

σ Printer.color = 1
AND Printer.price < 200

Π maker

3. What makers produce PCs, Laptops, and Printers?

```
SELECT maker
FROM Product
WHERE type = 'pc'
      AND maker IN (
        SELECT maker
        FROM Product
        WHERE type = 'printer'
      )
      AND maker IN (
        SELECT maker
        FROM Product
        WHERE type = 'laptop'
      )
GROUP BY maker;
```

Product

Product

Product

σ type = 'printer'

σ type = 'laptop'

Π maker

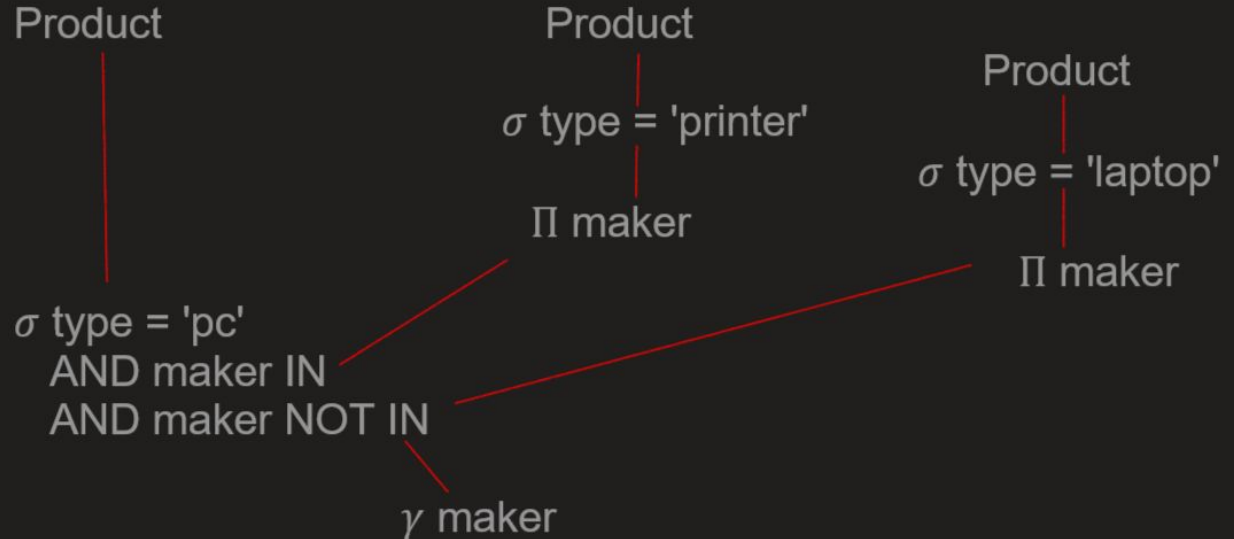

Π maker

σ type = 'pc'
AND maker IN
AND maker IN

γ maker

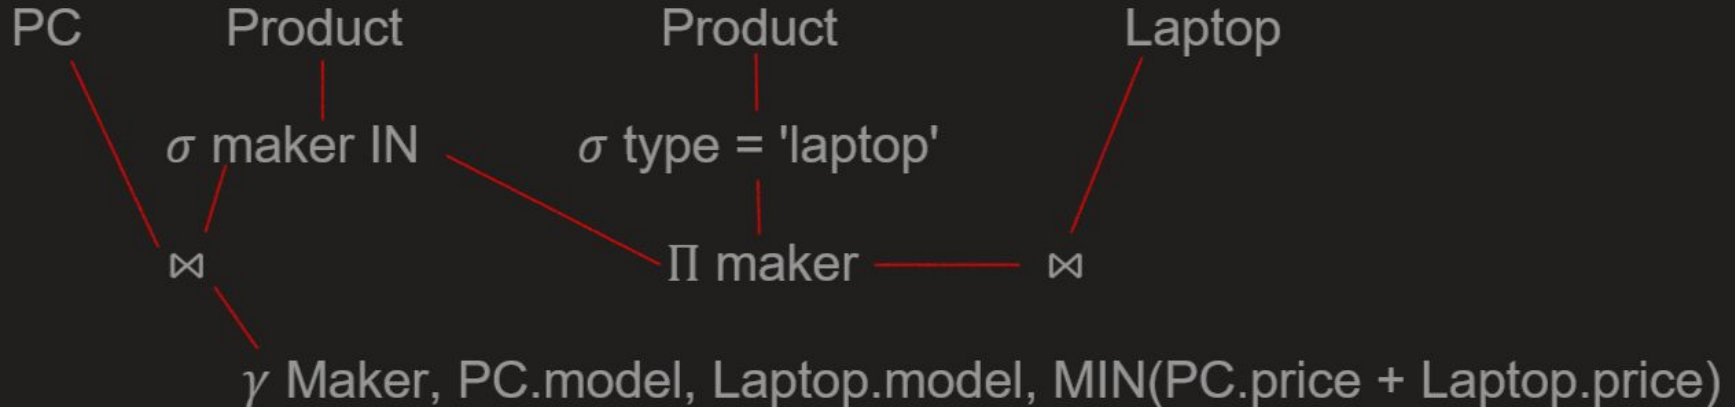

4. What makers produce PCs and Printers but do not produce Laptops?

```
SELECT maker
FROM Product
WHERE type = 'pc'
      AND maker IN (
        SELECT maker
        FROM Product
        WHERE type = 'printer'
      )
      AND maker NOT IN (
        SELECT maker
        FROM Product
        WHERE type = 'laptop'
      )
GROUP BY maker;
```

5. For every maker that sells both PCs and Laptops, find the combination of PC and Laptop that has minimum price. Print the maker, the PC model, Laptop model, and the combination price (PC price + Laptop price)

```
SELECT maker, PC.model, Laptop.model, MIN(PC.price + Laptop.price)
FROM Product, PC, Laptop
WHERE type = 'pc'
      AND maker IN (
        SELECT maker
        FROM Product
        WHERE type = 'laptop'
        AND Product.model = Laptop.model
      )
      AND Product.model = PC.model
GROUP BY maker;
```

6. What is the average price of a printer?

```
SELECT AVG(Printer.price)
FROM Printer;
```

Printer

Π AVG(Printer.price)

7. How many models of each different type of printers are offered?

```
SELECT DISTINCT COUNT(Printer.model)
FROM Printer
GROUP BY Printer.type;
```

Printer

|

γ Printer.type, DISTINCT COUNT(Printer.model)

8. How many models of laser color printers are available?

```
SELECT COUNT(Printer.model)
FROM Printer
WHERE type = 'laser'
      AND color = 1;
```

Printer

|

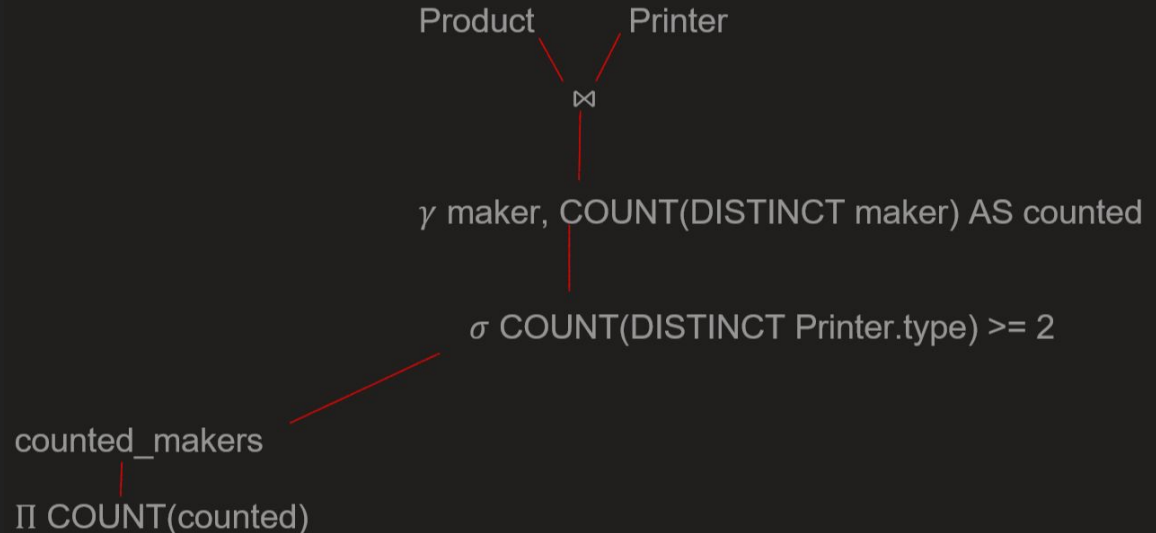

σ type = 'laser'
AND color = 1

|

Π COUNT(Printer.model)

9. How many makers produce at least 2 different types (not models) of printers?

```
SELECT COUNT(counted)
FROM (
  SELECT COUNT(DISTINCT maker) AS counted
  FROM Product, Printer
  WHERE Product.model = Printer.model
  GROUP BY maker
  HAVING COUNT(DISTINCT Printer.type) >= 2
) AS counted_makers;
```

10. For every laptop screen size, find the minimum price of laptops having that screen size.

```
SELECT DISTINCT screen, MIN(price)
FROM Laptop
GROUP BY screen;
```

Laptop

γ screen, DISTINCT screen, MIN(price)

11. What laptop screen sizes are offered in at least 3 different models?

```
SELECT screen
FROM Laptop
GROUP BY screen
HAVING COUNT(DISTINCT model) >= 3;
```

Laptop
|
 γ screen
|
 σ COUNT(DISTINCT model) >= 3

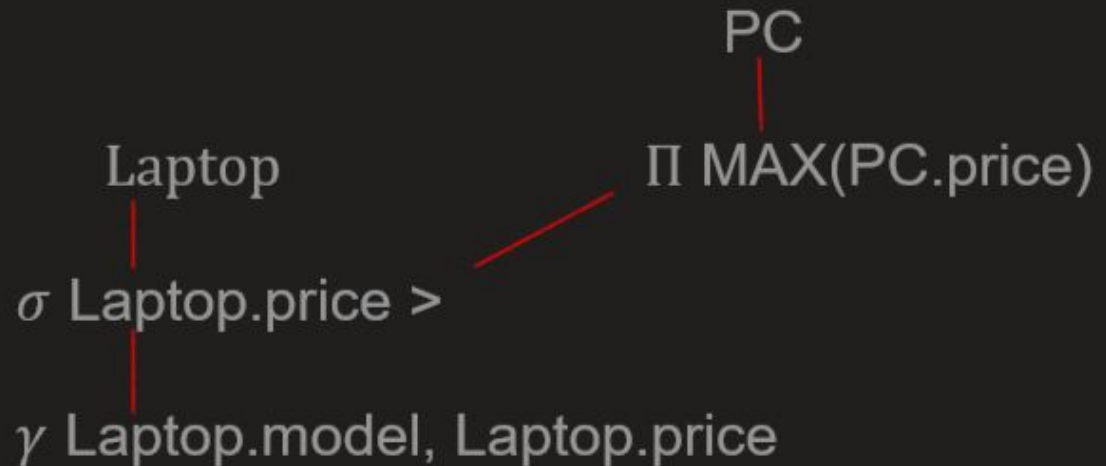

12. What laptop screen sizes are offered with at least 2 different speeds?

```
SELECT screen
FROM Laptop
GROUP BY screen
HAVING COUNT(DISTINCT speed) >= 2;
```

Laptop
|
 γ screen
|
 σ COUNT(DISTINCT speed) >= 2

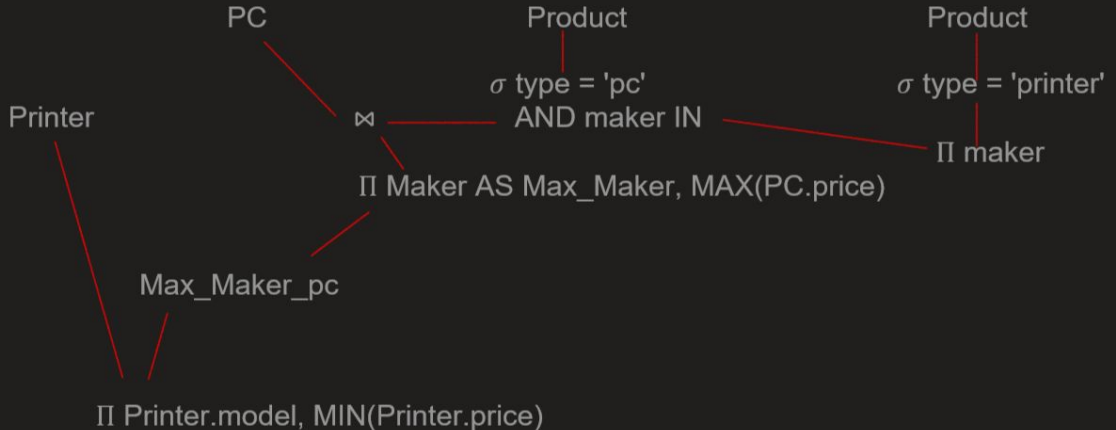

13. What laptops are more expensive than any PC? Print the model and the price.

```
SELECT Laptop.model, Laptop.price
FROM Laptop
WHERE Laptop.price > (
    SELECT MAX(PC.price)
    FROM PC
)
GROUP BY Laptop.model;
```

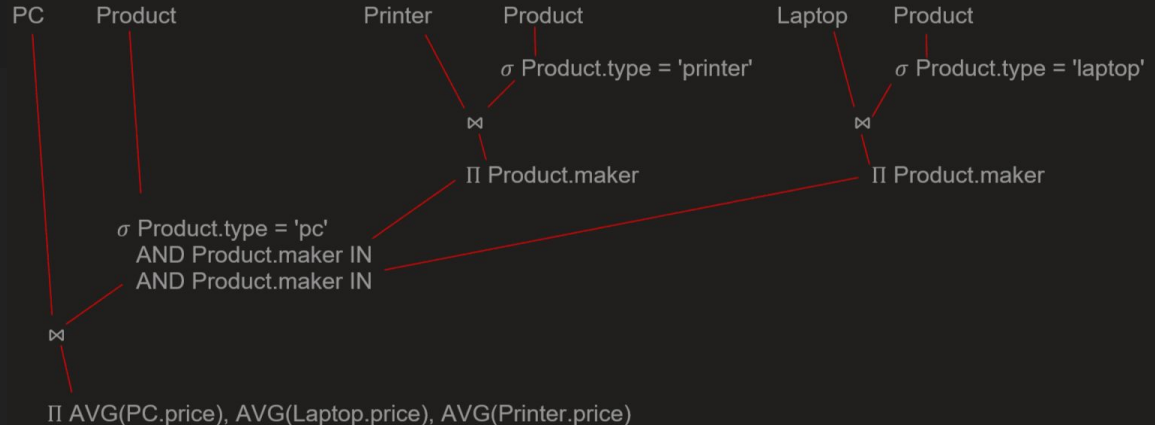

14. What printers produced by the maker of the most expensive PC that also produces printers are the cheapest? Print the model and the price.

```
SELECT Printer.model, MIN(Printer.price)
FROM (
  SELECT maker AS Max_Maker, MAX(PC.price)
  FROM Product, PC
  WHERE Product.model = PC.model
    AND type = 'pc'
    AND maker IN (
      SELECT maker
      FROM Product
      WHERE type = 'printer'
    )
) AS Max_Maker_pc,
Printer
```

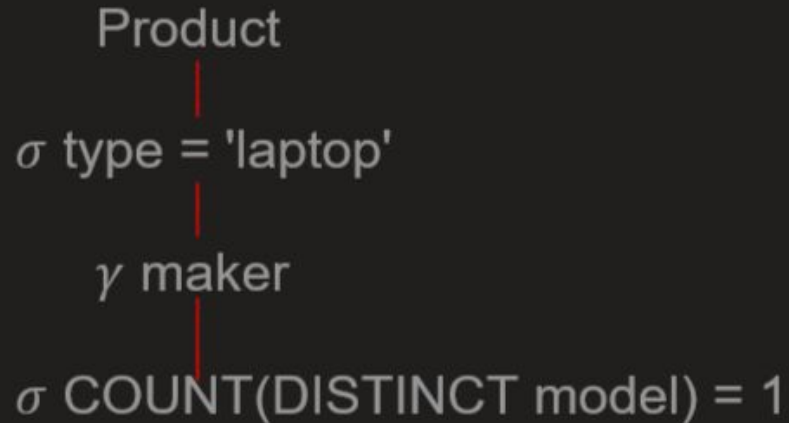

15. Find the average price for each product category (PC, Laptop, Printer) for every maker having products in all categories.

```
SELECT AVG(PC.price), AVG(Laptop.price), AVG(Printer.price)
FROM PC, Laptop, Printer, Product
WHERE Product.model = PC.model
  AND Product.type = 'pc'
  AND Product.maker IN (
    SELECT Product.maker
    FROM Product
    WHERE Product.model = Printer.model
      AND Product.type = 'printer'
  )
  AND Product.maker IN (
    SELECT Product.maker
    FROM Product
    WHERE Product.model = Laptop.model
      AND Product.type = 'laptop'
  );
```

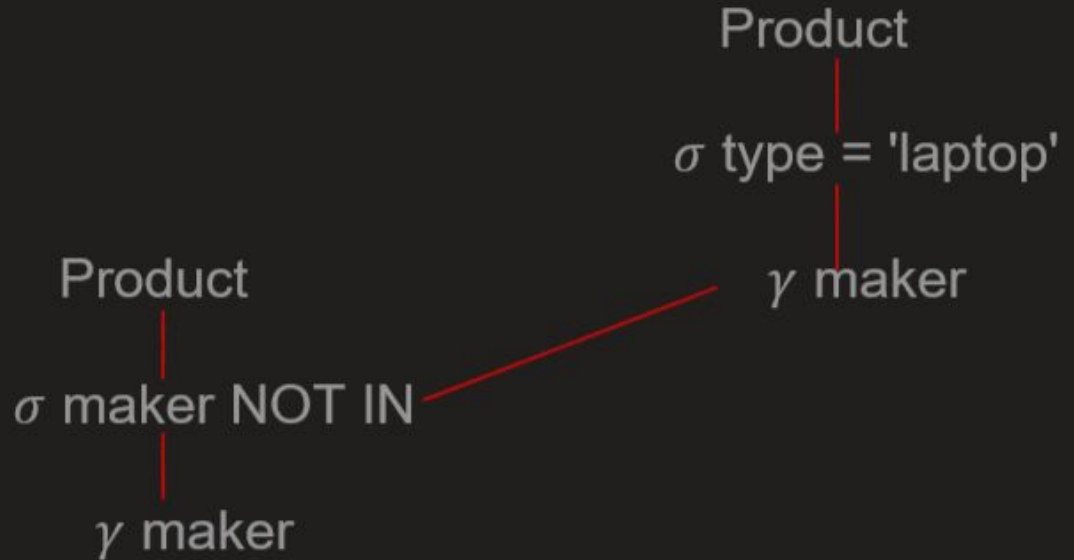

16. What makers produce exactly a single Laptop model?

```
SELECT maker  
FROM Product  
WHERE type = 'laptop'  
GROUP BY maker  
HAVING COUNT(DISTINCT model) = 1;
```

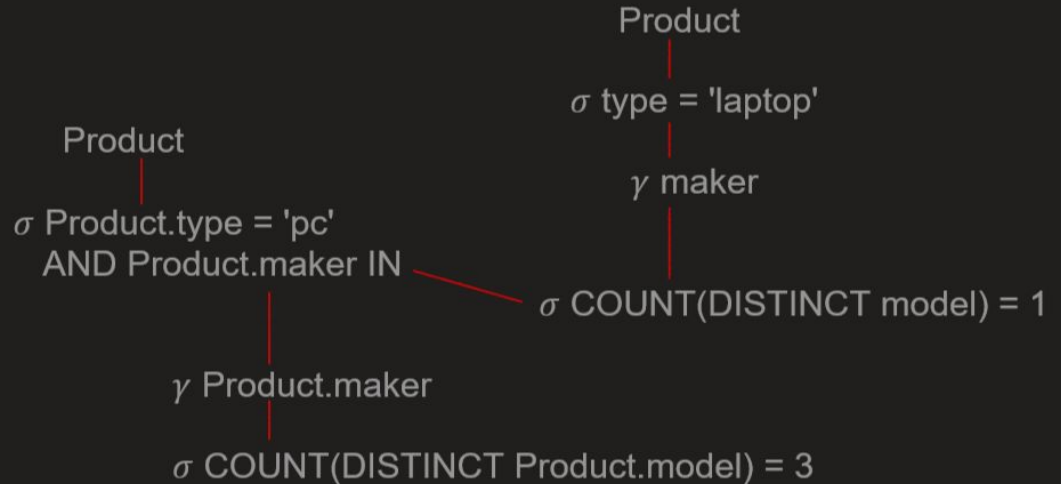

17. What makers do not produce any laptop model?

```
SELECT maker
FROM Product
WHERE maker NOT IN (
    SELECT maker
    FROM Product
    WHERE type = 'laptop'
    GROUP BY maker
)
GROUP BY maker;
```

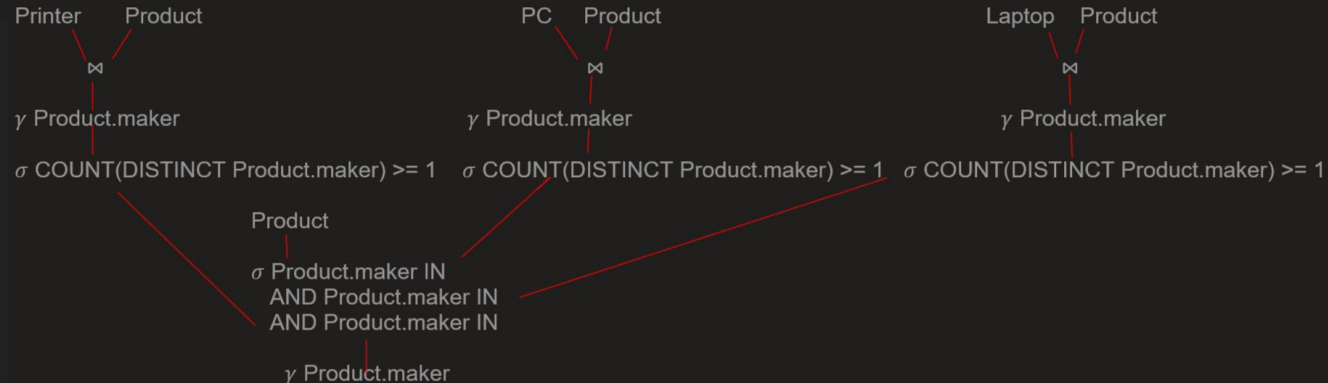

18. What makers produce a single laptop model and exactly 3 PC models?

```
SELECT Product maker
FROM Product
WHERE Product maker IN (
    SELECT maker
    FROM Product
    WHERE type = 'laptop'
    GROUP BY maker
    HAVING COUNT(DISTINCT model) = 1
)
AND Product.type = 'pc'
GROUP BY Product maker
HAVING COUNT(DISTINCT Product.model) = 3;
```

19. What makers produce at least a PC or Laptop model and at most 3 Printer models?

```
SELECT Product.maker
FROM Product
WHERE Product.maker IN (
    SELECT Product.maker
    FROM Product, PC
    WHERE Product.model = PC.model
    GROUP BY Product.maker
    HAVING COUNT(DISTINCT Product.maker) >= 1
)
AND Product.maker IN(
    SELECT Product.maker
    FROM Product, Laptop
    WHERE Product.model = Laptop.model
    GROUP BY Product.maker
    HAVING COUNT(DISTINCT Product.maker) >= 1
)
AND Product.maker IN (
    SELECT Product.maker
    FROM Product, Printer
    WHERE Product.model = Printer.model
    GROUP BY Product.maker
    HAVING COUNT(DISTINCT Product.maker) <= 3
)
GROUP BY Product.maker;
```

20. List the laptops with screen size 15 or larger and speed less than 2 made by a maker that also makes printers. Print the laptop model, the screen, the speed, and the maker.

```
SELECT DISTINCT Laptop.model, Laptop.screen, Laptop.speed, Product.maker
FROM Laptop, Product
WHERE Product.model = Laptop.model
      AND Laptop.screen >= 15
      AND Laptop.speed < 2
      AND maker IN (
        SELECT maker
        FROM Product
        WHERE type = 'printer'
      );
```
